

13 September 2022

To our stakeholders:

The year was the consolidation of our business strategy, which aims to be a global, digital, innovative and sustainable powerhouse of desired and hyper-connected brands. Therefore, we are pleased to confirm that Alpargatas S.A. reaffirms its support for the Ten Principles of the United Nations Global Compact in the areas of Human Rights, Labour, Environment and Anti-corruption.

We adopted, for the first time publicly, the international standards of the Global Reporting Initiative (GRI). Our objective is to make the communication of our ESG - Environmental, Social and Corporate Governance management increasingly solid, transparent and aligned with the best market practices.

Our Annual Sustainability Report also presents our corporate sustainability strategy that aims to guide and challenge us over the next few years towards reducing the negative impacts of our operations, as well as enhancing those that are positive, through actions aimed at the circular economy, diversity and inclusion, operations and increasingly responsible value chains.

Sincerely yours,

Roberto Funari
Chief Executive Officer
