H.E. António Guterres  
Secretary General United Nations  
New York, NY10017 USA

Dear Mr. Secretary General

I am pleased to confirm the continuity of Companhia Siderúrgica Nacional's support of the ten principles of the Global Compact on human rights, labour, environment and anti-corruption. With this communication, we reaffirm our commitment to the implementation of these principles as part of our company's strategy, culture and operations and to engage in cooperative projects that promote the broader development objectives of the United Nations, in particular the Sustainable Development Goals.

In this second year as signatories to the Global Compact we shared with all our stakeholders our CSN Group and CSN Mineração Integrated Reports, in order to reaffirm our commitment to transparency in disclosing our progress and performance on ESG issues and compliance with the policy of the COP of the Global Compact. In the documents we report our strategy and results achieved in line with the Principles of the Global Compact and the Sustainable Development Goals (SDGs), as well as the advancement of targets and performance indicators through quantitative and qualitative measurement.

Yours Sincerely
