Dear Mr. Secretary- General,

I am pleased to reconfirm that MetLife supports the ten principles of the United Nations Global Compact on Human Rights, Labor, Environment, and Anti-Corruption.

Our primary means of communicating our progress can be found in our annual sustainability report (<https://www.metlife.com/sustainability/>). For more information on alignment to the United Nations Global Compact's ten principles in each of the four issue areas (Human Rights, Labor, Environment and Anti-Corruption), please visit our UN Global Compact Index in [MetLife's 2021 Sustainability Report](#) on pg. 96-97.

In addition to advancing the United Nations Global Compact principles, we believe that the United Nations Sustainable Development Goals (UN SDGs) provide a shared blueprint for achieving peace and prosperity for people and the planet, now and into the future. MetLife's sustainability strategy is closely aligned with the UN SDGs to contribute toward meaningful change around the world. While we support all 17 UN SDGs, we have prioritized five goals in particular, given their relevance to our business. The five goals we have prioritized include: Goal #3 - Good Health and Wellbeing, Goal #5 - Gender Equality, Goal #8 - Decent Work and Economic Growth, Goal #10 - Reduced Inequalities, and Goal #13 - Climate Action.

For more information on how MetLife supports the UN SDG's please see [MetLife's 2021 Sustainability Report](#), pg. 8-9 and 94-95.

Sincerely,
