Dear Mr. Secretary-General

I am pleased to confirm that Eimskipafélag Íslands hf. supports the ten principles of the United Nations global compact on human rights, labor, environment, and anti-corruption.

With this communication, we express our intent to advance those principles within our company. We are committed to continue the journey of making the UN Global Compact and its principles part of our company's strategy, culture and day-to-day operations. We engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development goals. Eimskipafélag Íslands hf. has clearly stated this commitment to our stakeholders and the general public.

We recognize that a critical requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency and commit to reporting on progress according to the UN Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the Company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met or other qualitative or quantitative measures of results).

Yours sincerely

Eimskipafélag Íslands hf.
