COMMUNICATION ON PROGRESS

(Effective 2023)

Document version: August 2022

United Nations
Global Compact

Beginning in 2023, the Communication on Progress will require participants to annually a) submit an electronic statement by the Chief Executive Officer expressing continued support for the UN Global Compact as well as b) complete the Communication on Progress questionnaire. This reference document contains the questions that will be presented in the questionnaire.

Overall, the questionnaire is designed to add value to participants in several ways:

- Build credibility and brand value by showing their commitment to corporate sustainability, the Ten Principles and the Sustainable Development Goals.
- Measure and demonstrate progress on the Ten Principles, in a consistent and harmonized way.
- Receive insight, learn and continuously improve performance. The new platform will provide technical help, resources, and guidance at every step of the way. It will help you identify gaps and set goals to improve sustainability performance year over year.
- Compare progress against peers with access to one of the largest sources of free, public, and comparable corporate sustainability data.

The questionnaire is structured in five sections. The first section, Governance, provides a cross-cutting overview of the companies' sustainability governance structure. The remaining four sections, Human Rights, Labour, Environment, and Anti-Corruption, survey companies about their performance with respect to the Ten Principles of the UN Global Compact. Within each section, companies will answer questions that address process and policies that demonstrate a company's commitment to progress, efforts taken to prevent negative social and environmental impact, performance indicators, and remediation and reporting mechanisms to address grievances and reflect on lessons learned.

Notably, the human rights and environment sections contain additional nuance. The human rights section provides companies with the opportunity to select their material topics for disclosure, while the environment section includes curated sector-specific questions, for example on water and biodiversity, that are to be answered only by business participants operating in certain industries. This document contains all questions and possible answer options; not all companies will answer all questions when using the digital platform.

Please note that this questionnaire may be subject to minor edits. Please refer to the digital platform for the final version. Please refer to the United Nations Global Compact Communication on Progress for additional guidance including question rationale and calculation methodology.
