

To our stakeholders:

We recognize that a key requirement for participating in the UN Global Compact is the preparation and publication of an annual Communication on Progress (COP) that includes a CEO statement of continued support for the Compact United Nations Global Compact, a description of practical actions in relation to the principles of the United Nations Global Compact, and a measure of results or expected results.

We are late in creating, sharing and publishing our COP report due to the delay in drafting and validating the social engagement report.

We hereby request an extension period to be able to publish a COP describing our company's efforts and progress in implementing the principles of the United Nations Global Compact.

Our new COP report will be published on the UN Global Compact website max. 90 days from the COP deadline at most.

Sincerely,

M Emilia Gil  
technical director
