

31/10/2022

To our stakeholders,

We recognise that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

IMC Worldwide was acquired by DT Global on 01 April 2022. DT Global then acquired Cardno Emerging Markets on 1 September. As a result of these acquisitions and because of the changes to the company structure, we will not be developing and posting our COP report as 'IMC Worldwide'.

We are in the process of consolidating our current membership as IMC Worldwide into a new, global membership under DT Global. We are requesting, that we apply the grace period to our next submission so that we can report to the UNGC under the company name of 'DT Global' moving forward.

Our new COP report will be posted on the UN Global Compact website once our membership as DT Global has been finalised.

Sincerely yours,

Bryony Everett
Director of Global Programmes
DT Global
