CEO STATEMENT OF CONTINUED SUPPORT FOR THE UNITED NATIONS GLOBAL COMPACT

As a responsible company, we also support our local communities through the Grit Foundation incorporated earlier this year. Our in-house methodology for impact assessment uses the SDGs as a primer to understand and quantify the social and environmental returns of CSR projects in which we invest.

On behalf of Grit, we are pleased to offer our continued support and renew our commitment to the UNGC and its 10 principles. As demonstrated in our Integrated and Sustainability reports, we remain committed to maintain a high level of transparency and accountability towards our stakeholders. Going forward, we aim to work towards a more structured approach to elevate our sustainability strategy and continue to deliver on our sustainability targets.

In addition, we are also proud to have a representative on the board of the Global Compact Network Mauritius and Indian Ocean region to promote the adoption of the Sustainable Development Goals (SDGs) by the private sector. Through the local network, we are also helping to spread awareness on responsible business within the region as well as facilitate outreach, learning, policy dialogue, collective action and partnerships.
