

15/11/2022

H.E. António Guterres
Secretary-General United Nations
New York, NY 10017 USA

Dear Mr. Secretary-General,

I am pleased to confirm that AIGLE COMPANY renew its supports on the Ten Principles of the United Nations Global Compact on human rights, labor, environment, and anti-corruption.

Since 2020, we committed to make the UN Global Compact and its principles part of the strategy, culture, and day-to-day operations of our company, and to engage in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

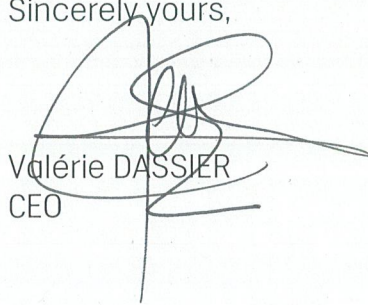

Running Social audits on all our factories; improving our CoC signed by each of our stakeholders, developing sustainable products, and last but not least, taking actions in order to reduce our carbon emissions are now in the heart of our operational roadmaps.

These commitments are shared by all business lines and by all company employees.

We are glad to submit our DPEF, as Communication on Progress, with a description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) in 2021 to implement the UN Global Compact principles in each of the four issue areas (human rights, labor, environment, anti-corruption).

We fully assume our share of responsibility, convinced that the best solutions effective can only be found at the cost of deep corporate commitment.

Sincerely yours,

Valérie DASSIER
CEO
