Communication of Engagement (COE) for Non-Business Organizations

Detailed description of the actions implemented

- ✓ Propose and implement partnerships projects on corporate sustainability and engage with other stakeholders;

In the reporting period 2020-2022 the organization was able to increase the level of collaboration and the number of partnerships with private corporates, moving from 61 to 61 supporting partners. When possible, the principles were quoted as point of reference for Soleterre' policy re: partnership with private sectors.

Furthermore, in all contracts Soleterre has inserted a specific compulsory section about Ethical Code to be read and signed by commercial partners

- ✓ Engage with Global Compact Local Networks;

During the reporting period the organization participated quite actively to the activities proposed by the Global Compact Network Italy, first by announcing publicly our adhesion to the Network in 2018 (<https://soleterre.org/comunicati-stampa/soleterre-aderisce-al-global-compact-network-italia/>) and then participating to local events, including also the Annual Assembly.

- ✓ Participate in Global Compact both global and local events;

During the reporting period the organization followed the activities and the information sharing of both global and local networks, often re-sharing to the Soleterre community of supporters some of the initiatives.
