Jakarta, 13<sup>TH</sup> December 2022,

To: Our stakeholders:

Ref: GCNI/COP/12-2022 Communication on progress

Dear partners, dear Sirs,

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are late in creating, sharing and posting our COP report due to the post COVID19 slow recovery that lead to intensive activities outside our traditional boundaries. These diversification activities, under reduced human resources and more stringent decision criteria from our stakeholders, have triggered innovations but also award-winning research and development activities. These efforts have disturbed our COP reporting but we are confident being able to provide substantial evidences of our efforts and revised outcomes within few weeks.

We hereby ask for an extension period in order to be able to post a COP that describes our company's efforts and progress to implement the principles of the UN Global Compact. Our new COP report will be posted on the UN Global Compact website by 31st January 2023 at the latest.  
Sincerely yours,

Didier Perez

Founder and CEO
