
Period covered by this Communication on Engagement

From: April 2021 To: April 2023

Part I. Statement of Continued Support by the Chief Executive or Equivalent

19 April 2023

To our stakeholders:

I am pleased to confirm that Jembi Health Systems reaffirms its support to the United Nations Global Compact and its Ten principles in the areas of Human Rights, Labour, Environment and Anti-Corruption. This is our Communication on Engagement with the United Nations Global Compact. We welcome feedback on its contents.

In this Communication of Engagement, we describe the actions that our organization has taken to support the UN Global Compact and its Principles as suggested for an organization like ours. We also commit to sharing this information with our stakeholders using our primary channels of communication.

Sincerely

Dr Christopher Seebregts

Chief Executive Officer

Part II. Description of Actions

Jembi Health Systems is a non-profit organisation, operating in low income countries to support local capacity development support in Health focused Information Systems. Working with global funders, partners and local partners and country governments, our work, management and activities related to the Global Compact include the following:

- Incorporating the GC principles into Jembi’s internal operations and communicate progress following the COP requirements. These include the development of policies and procedures implementing GC principles in the organisation.
- Promoting the GC and its principles through the following activities
 - Delivering education on topics related to the Global Compact through our informatics leadership training in African countries
 - Conducting applied research and thought leadership in relation to the Global Compact through Jembi’s network of academic and NGO partners
 - Disseminating the Global Compact principles through the core values of Jembi and its business model.
- Engaging with Global Compact Local Networks

Part III. Measurement of Outcomes

Please use the box below to include the most relevant qualitative and/or quantitative indicators to measure the outcome of the activities described in Part II above.

- The most relevant qualitative and/or quantitative indicators to measure the outcome of the activities described in Part II above include the following:
 - Number of policies developed incorporated GC principles – Two (Nepotism policy, Governance framework)
 - Number of countries we work in to expand and improve health outcomes and deliver leadership training – 11 (Ethiopia, Zambia, Rwanda, Cameroon, Uganda, Madagascar, Indonesia, Botswana, Nigeria, South Africa, Mozambique).
 - Number of people in country trained in digital health related technologies / processes / standards and adoption of a form of Informatics training curriculum – estimated at about 200, mainly in Ethiopia
 - Number of research projects and applied research projects impacting on people’s health and wellbeing – 2 in South Africa
 - Number of partnerships created with like-minded organisations espousing the GC principles – 2:
 - Global CDC Technical Assistance Platform (TAP) consortium.
 - Open Health Information Exchange initiative
