Braeburn Schools have in place Employment and Education Policies that serve as guidelines to govern the procedures and practices of the Company to ensure all our schools are committed to respecting the rights and dignity of all people. Staff, students and those acting on behalf of the schools are expected to maintain ethical standards as well as observing the applicable policies, practices, government regulations and professional standards at all times. Those in supervisory positions are expected to assume the responsibility of ensuring that their conduct and that of those they supervise comply with the company policies and best practice.

### Labour

Principle 3 : Business should uphold the freedom of association and the effective recognition of the right to collective bargaining

Principle 4 : The elimination of all forms of forced and compulsory labour.

Principle 5 : The effective abolition of child labour;

Principle 6 : The elimination of discrimination in respect of employment and occupation

Braeburn is determined to maintain high standards in education and employment. Five of our schools are CIS-accredited schools, six are BSO accredited, and are also COBIS & AISA members. Braeburn has a commitment to the welfare of all its stakeholders. In addition, there is a forum for addressing working terms and conditions of employment which is done, in part, through collective bargaining with staff through their shop stewards and trade union representatives. Any issues of concern are then discussed through the agreed policy formulation into a Collective Bargaining Agreement.

Braeburn respects the rule of law. For the dignity and welfare of all its staff, the Labour and Employment Laws of the country are fully observed. For best practice, Braeburn has ensured all its employees have a police clearance certificate and national identification documents to eliminate any form of forced or compulsory or child labor within our campuses.

## PART III - MEASUREMENT OF OUTCOMES

The most relevant qualitative and/or quantitative indicators to measure the outcome of the activities described in Part II

Since becoming a UN Global Compact participant, Braeburn has ensured that all those doing dealings with them are aware of their commitment to support the UNGC principles in shaping the world we want. For good practice Braeburn has ensured that all their staff have undertaken Child Protection and Safeguarding training. All those working in our schools share a common objective to help keep the children safe from harm and abuse. The safety and welfare of the child have been placed above all other considerations.

Braeburn has ensured an environment for all employees that is fair, humane, and respectful, one that support and reward employee on the basis of relevant considerations such as ability and effort. The end results have shown a happy and motivated team of staff.

Braeburn schools have policies that help to run and govern the schools and these have been made available to all its staff. Policy reviews is a continuing journey to ensure that matters pertaining to the welfare of the children and all the stakeholders are covered in these policies This reflects a more responsible workforce that is aware of its rights, privileges and responsibilities. The conducive environment that is friendly to all those associated with Braeburn and the transparency in all its dealings has helped Braeburn in its commitment to sustainability.

Security measures implemented in all our schools is an obvious assurance to all those in Braeburn that they enjoy a peace of mind knowing that the company has taken responsibility to protect their welfare while in the compound.

Braeburn specialises in Teacher Training development for International Education and has partnered with University of Nottingham - UK to offer an International Post Graduate Certificate in Education (PGCEi) programme. This is a programme of professional enrichment for educators working in countries other than the UK. This partnership is an added advantage and value to Braeburn's continued support for the Global compact principles.

Braeburn played a major role in advocating for the formation of Kenya Association of International Schools (KAIS). The association brings together, encourage, promote and protect the interests of the member schools in Kenya. The KAIS vision is to promote and represent the best interests of international schools in Kenya, winning recognition for their value and contribution as outstanding educators of children, as a thriving business sector and as an important component in the development of the country.

Braeburn shall continue to support the United Nations Global Compact and its Principles. In response to the Covid-19 pandemic, Braeburn recognised that the health and well-being of its pupils, guardians, staff, volunteers and the overall Braeburn community is of the highest concern. Sincere gratitude goes to the Braeburn community and those associated with them who in following our Pandemic Response Protocols came together to ensure that the well-being of everyone remained at the forefront. As per our response protocols, academic operations at all seven campuses across Kenya were suspended and replaced Remote Teaching and Learning (RTL) in all the schools for the period of lockdown and the teaching and learning continued remotely uninterrupted. Thanks to all our stakeholders.
