

COMMUNICATING ENGAGEMENT OF INDONESIAN CHILD WELFARE FOUNDATION

I. Introduction

A brief introductory statement should include information about your organization's area of work, goals and geographical coverage.

The Indonesian Child Welfare Foundation

Established on 17 July 1979, inspired by the UN Declaration on the Rights of the Child, the foundation has made all the effort to raise community awareness of child's rights to survive, grow and develop towards an individual with human dignity.

Our vision is to build Indonesian children into strong, quality, and forward-looking citizens towards a prosperous and independent Indonesian society.

Our mission is to improve the quality and the welfare of Indonesian children by increasing public awareness, knowledge and capacity to develop their potential in accordance with their rights and the creation of an environment that provides opportunities, support, freedom and protection for the full mental, physical, moral, spiritual and social development of Indonesian children.

In May 2002 we get consultative status from the UN ECOSOC (Economic and Social Council)

IX. Initiatives taken in support of the SDGS

Goal 2: Achieve Universal Primary Education

The Indonesian Child Welfare Foundation have a high concern to education, majority of our program focus on education for example Scholarship program for elementary school student to university. Then program for non formal school education : as same as elementary school (Package A), Junior High School (Package B), and Senior High School (Package C). We also initiative some Early Childhood education in the location of our branches.

Goal 4: Quality Education

Obtaining a quality education is the foundation to creating sustainable development. In addition to improving quality of life, access to inclusive education can help equip locals with the tools required to develop innovative solutions to the world's greatest problems.

The Indonesian Child Welfare Foundation have a Program Mobile Information and Technology for rural areas. The purpose of the program is encourage the student to access technology in the mobile library .

Goal 5: Gender Equality

ICWF providing women and girls with equal access to education. Our Foundation provide scholarship for young women in order they get a better education for their life. ICWF also held a capacity building about gender.

In 2002 we also participating in SDGS award run by National Development Planning Agency
(Badan Perencanaan Pembangunan Nasional)
