Distribution of Deworm Tablets to School Students and Teachers Across Tamil Nadu

Pooma Educational Trust affiliates UNGC

DISTRIBUTION DETAILS

- Target Recipients: School students and teachers across Tamil Nadu
- Tablet Type: Albendazole chewing tablets
- Administered Dosage: As per medical guidelines

SIGNIFICANCE

- Improved Health: Regular deworming can help reduce the prevalence of intestinal worm infections, contributing to improved health and nutrition among school children.
- Enhanced School Attendance: By addressing health-related barriers, the initiative is expected to positively impact school attendance and overall academic performance.
- Health Education: The distribution process also provides an opportunity to educate students about basic health practices and hygiene.

Objective:

The distribution of deworming tablets is part of a larger effort to promote health and hygiene among school-going children and educators. The initiative focuses on combating intestinal worm infections, which can adversely affect children's overall health, cognitive development, and school attendance.

Implementation:

- Procurement: The Government of Tamil Nadu procured Albendazole chewing tablets from reliable pharmaceutical sources to ensure the availability of quality medication.
- Distribution Process: Health authorities and school administrators collaborated to ensure the efficient distribution of tablets to schools across the state.
- Awareness Campaign: Prior to the distribution, an awareness campaign was conducted to educate students, teachers, and parents about the importance of deworming and the benefits of Albendazole tablets.
- Dosage Administration: Trained healthcare personnel or volunteers supervised the administration of the tablets to ensure correct dosage and proper consumption.

SADBHAVNA DIWAS-COMMUNAL HARMONY

நல்லிணக்க தினம்

August 18, 2023

20 ஆகஸ்ட் 2021, இந்தியாவின் முன்னாள் பிரதமர் ராஜீவ் காந்தியின் 77வது பிறந்தநாளைக் குறிக்கிறது. இந்த நாள் அனைத்து மதங்களைச் சேர்ந்த இந்திய மக்களிடையே தேசிய ஒருமைப்பாடு, அமைதி, பாசம் மற்றும் வகுப்புவாத நல்லிணக்கத்தை ஊக்குவிக்கும் நோக்கத்துடன் 'சத்பவனா திவாஸ்' அல்லது நல்லிணக்க நாளாக அனுசரிக்கப்படுகிறது.

Pledge

ஈThe pledge for communal harmony was taken by Hameediah Boys HSS Kilakarai students, ranging from classes 6 to 12, during the assembly led by Mr. L Basheer, PG English teacher, aligns with the spirit of Sadbhavna Diwas. This event, held in memory of the late Prime Minister Shri Rajiv Gandhi, seeks to foster unity and understanding among individuals, transcending communal divides.

NATIONAL LIBRARY DAY

தேசிய நூலக தினம்

Kilakarai, August 12, 2023 - Hameediah Boys Higher Secondary School (HSS) in Kilakarai marked a significant occasion on Saturday, August 12th, as it celebrated National Library Day with enthusiasm and pride. The event was graced by esteemed guest Mr. Haja Shariff, Headmaster of GHSS, R S Mangalam, Ramanathapuram.

The school's dedication to fostering a love for reading and learning was vividly evident during the celebration. The highlight of the event was the recognition of the exceptional efforts made by both teachers and students in contributing to the development and enrichment of the school library.

Certificates of appreciation were awarded to teachers and students who demonstrated unwavering commitment and dedication towards the school library. Their active involvement and valuable contributions have significantly contributed to the library's growth and impact within the school community.

The celebration of National Library Day at Hameediah Boys HSS serves as a testament to the school's commitment to nurturing a culture of reading and knowledge exploration among its students. As a beacon of learning, the school continues to inspire and empower future generations through its well-curated library and the collective efforts of its dedicated educators and students.

Independence Day is more than just a national holiday. It's a symbol of pride, freedom, and the resilient spirit of a great nation.

Today, we celebrate the 76th anniversary of India's independence from British rule. On this day, we reflect on our history, honor those who have fought for our liberty, and celebrate the unity and diversity that make us strong. This is a day to commemorate the sacrifices of the freedom fighters who fought for our freedom and reaffirm our commitment to building a better future for our country. We are living in a time of unprecedented challenges and opportunities.

The world is facing a global pandemic, which has affected millions of lives and livelihoods. Climate change is threatening our environment and natural resources. Social media and digital platforms are influencing our opinions and behaviors. The geopolitical tensions and conflicts are creating instability and insecurity. Economic competition and innovation are creating new markets and opportunities.

In such a scenario, we need to be united and resilient as a nation. We need to uphold the values of democracy, secularism, diversity, and tolerance that our constitution enshrines. We need to harness the potential of our youth, who are the future of our nation. We need to leverage the power of technology, which can transform our lives and livelihoods. We need to foster the spirit of cooperation and collaboration, which can enhance our regional and global partnerships.

As we celebrate our Independence day today, let us also renew our pledge to serve our nation with dedication and devotion. Let us also aspire to make our nation a leader in every field of human endeavor. Let us also strive to make our nation a land of peace, prosperity, and happiness for all.

On this day, let us remember the values of freedom, equality, and justice. Let us also pledge to uphold these values in our daily lives.

Let us work together to make our country a land of peace, prosperity, and unity. May the spirit of independence and freedom always prevail in our hearts. Jai Hind

Education Development in India and Somaliland

Education Development in India and Somaliland - UN Aligned.

Education development in India and Somaliland faces unique challenges. India has made progress in terms of access, enrollment, and reducing gender disparities. However, issues of quality and equity still persist, especially in rural areas. Somaliland, as a self-declared state, lacks international recognition and faces challenges of financial support and infrastructure. Despite these challenges, both regions are working towards aligning with the SDGs and require international support for sustainable education development.

United Nations

SDG Progress Report

Concerned the quality of education.

United Nations

I am writing to you to provide a recommendation of the quality of education in Somaliland, as well as to offer some possible suggestions for improvement.

As an experienced educator and curriculum development expert with a Master of Education degree in Curriculum and Teachers Professional Development and Bachelor of Science degrees in Physics and Mathematics, as well as Statistics and Mathematics from the University of Hargeisa, Somaliland, I have had the privilege of working in various educational institutions in Somaliland and have extensive knowledge about the education system in the country.

Furthermore, the quality of education in Somaliland has shown improvements in recent years, but there is still much room for growth. One of the major challenges facing the education system in Somaliland is inadequate resources and infrastructure. Classrooms are often overcrowded, and there is a lack of learning materials and teaching aids, making it difficult to provide a quality learning experience for students. Teachers also face many challenges, including low salaries, lack of training, and inadequate resources.

Another issue is the need for a more inclusive education system that can address the needs of all students, including those with disabilities and other challenges. Enhancing the quality of the curriculum and assessment systems would also be beneficial, ensuring that they meet international standards and measure the competencies and skills required in today's rapidly changing world.

To address these issues, I recommend the following actions:

- 1. Increased funding:** Inadequate funding is a significant obstacle for the education system in Somaliland. Increasing funding from the government and international organizations can help improve infrastructure, enhance the quality of education, and improve the working conditions of teachers.
- 2. Capacity Building:** To enhance the quality of education, there is a need for capacity building in teacher training, curriculum and syllabus development, and assessment systems. Professional development programs can help teachers develop the skills and knowledge necessary to deliver high-quality education and engage with international best practices in teaching.
- 3. Inclusive Education:** There is a need for a more inclusive education system that is accessible to all, including those with disabilities. By providing the required services and support, students with special needs can become active and productive members of society.
- 4. Curriculum Improvements:** The education curriculum should focus on essential competencies, skills, and critical thinking that will prepare students for today's rapidly changing world. A more skills-based curriculum that encourages innovative thinking, problem-solving, and creativity can foster valuable skills in students and make them more competitive and productive in both academic and professional spheres.

Finally, despite the challenges facing the education system in Somaliland, there are still many possible ways to improve. I am optimistic that with a more comprehensive approach and the concerted effort of all stakeholders, we can foster greater access to quality education that will equip students with the knowledge and skills necessary to succeed in the modern world.
