BREATHTAKING LUNAR LANDING

Program Directors of ISRO's Major Missions!

Chandrayaan 1 - Mylaswamy Annadurai!

Chandrayaan 2 - Vanitha Muthiya!

Chandrayaan 3 - Veeramuthuvel!

Mangalyan - Subbiah Arunan!

They are all Tamils.

More important than this

They studied in the Tamil Nadu state curriculum!

Feeling so proud to be an Indian and also a Tamilian

BREATH-taking LUNAR LANDING

As the world held its collective breath, the ISRO's Chandrayaan spacecraft embarked on its journey. The night sky witnessed the fusion of technology and ambition, as the spacecraft's engines roared to life, propelling it beyond Earth's embrace. From the launch site to the lunar destination, every second marked a step towards the extraordinary.

As the world held its collective breath, the ISRO's Chandrayaan spacecraft embarked on its journey. The night sky witnessed the fusion of technology and ambition, as the spacecraft's engines roared to life, propelling it beyond Earth's embrace. From the launch site to the lunar destination, every second marked a step towards the extraordinary.

Months of meticulous planning had led to this moment, and as Chandrayaan's robotic lander neared its lunar touchdown, hearts raced and fingers tapped with anticipation. The nation watched as the lander, affectionately named "Vikram," approached the Moon's surface with cautious precision.

"Contact confirmed." The announcement echoed through mission control, unleashing a wave of exultation that swept across the nation. India had etched its name in lunar history. Vikram's successful landing was a testament to human ingenuity and dedication, transcending borders and politics, inspiring awe in every heart.

BREATHTAKING LUNAR LANDING

Dear Chandrayaan 3 Team,

On behalf of all space enthusiasts and admirers around the world, I would like to extend my warmest greetings to you. Your dedication and commitment to advancing our understanding of the Moon is truly commendable.

As you embark on this incredible journey, we want to express our utmost admiration for your tireless efforts in designing, building, and preparing for the Chandrayaan 3 mission. Your expertise and passion for space exploration serve as an inspiration to all aspiring scientists and engineers.

May your mission be filled with success, as you venture into the unknown and strive to unravel the mysteries of our celestial neighbor. We eagerly await the groundbreaking discoveries and invaluable knowledge that Chandrayaan 3 will undoubtedly bring.

Remember that your work transcends borders and unites humanity in the noble pursuit of knowledge. Your team's unwavering perseverance and collaborative spirit are a testament to the power of human ingenuity.

As you aim for the stars, know that you have our unwavering support and well wishes. Good luck, Chandrayaan 3 Team! May your journey be filled with excitement, scientific breakthroughs, and safe returns.

With sincere regards.

BREATHTAKING LUNAR LANDING

My beloved Indian citizens, Greetings of health and happiness!

Last 76 years of independence when always saying that India is developing in all sectors. But, how long will we tell our current young generation? It is the time to declare that India is a developed country by today's evening. Now we will show to the world that Indians are always together and created records in history.

On behalf of my entire school I wish a great grand success to our ISRO heroes.
