Educate yourself

WHO IS EDUCATED?

If you can change your behaviour
you are educated.

If you can empathize with others
feelings you are educated.

If you know what, when, where and
how to talk you are educated.

If you can keep your mind open for
new learning you are educated.

If you can learn from your mistakes
you are educated.

If you can control yourself from anger you are educated.

If you can appreciate your tradition and culture you are educated.

If you can learn to teach others you are educated.

If you can use your common sense in time of need you are educated.

If you can differentiate rational and irrational thoughts you are educated.

If you can live in harmony in spite of diversity you are educated.

If you can accept gender equality you are educated.

If you can value people by character and not of money you are educated.

If you can live a meaningful life you are educated.

Educate yourself and others too.
