THE SCHOOL UN VOLUNTEERS-INDIA

The United Nations volunteers of Saint Mary's Academy in Meerut Cantt organized a drawing competition for underprivileged children, with a total of 90 children under the age of 16. The competition was divided into three categories: below five years, 11 years, and 16 years, with two winners selected in each category. The children displayed excellent creativity and came up with beautiful designs and ideas.

A check-up camp was organized by a team from Neutema Hospital. All the children were examined for deficiencies in iron and calcium, and appropriate medicines were prescribed. Calcium and vitamin D tablets, deworming tablets, iron tonics, fever medicines for kids, and fever tablets were distributed. Oral check-ups were also conducted to examine the children for any dental issues or tooth ailments.

The camp was organized by United Nations volunteer Mrs. Rafat Naseer and her team of student volunteers.
