"Kirpal Sagar Academy
Students Fulfill Founder's
Dream with UNO Visit and UN
Day Celebration"

"Founder's Vision Realized by
Current Chairman, Dr. Karamjit
Singhji"

In a remarkable journey that blended education and global citizenship, students of Kirpal Sagar Academy in Nawanshahr, Punjab, fulfilled a long-cherished dream by visiting the United Nations headquarters in Geneva as part of their world tour program. This unique voyage culminated in a grand celebration of UN Day at the heart of the UN's operations. The dream of this extraordinary adventure was initially conceived by the

school's revered founder, His Holiness Dr. Harbajan Singhji Maharaj, who envisioned his schoolchildren stepping foot on the grounds of the United Nations. This vision, steeped in the principles of unity and global harmony, has now been realized by the current chairman, Dr. Karamjit Singhji.

Accompanied by the dedicated school functionaries, including Mr. Darshan Sharma and others, the students embarked on a globe-trotting expedition that

traversed continents. Their voyage reached its pinnacle on UN Day when they arrived at the United Nations headquarters.

On this significant occasion, the students and their delegation were warmly received by UN officials, marking a harmonious convergence of young minds and the guardians of international diplomacy. Together, they celebrated the United Nations' mission of peace, cooperation, and unity,

underlining the importance of global collaboration for a brighter future.

This momentous journey, guided by the ethos of Kirpal Sagar Academy, serves as a testament to the power of education, dreams, and the unwavering commitment to fostering a better world. The school's name now echoes in the halls of the United Nations, resonating with the spirit of unity and shared global responsibilities.

"Glory to Kirpal Sagar Academy" – a beacon of inspiration for educational institutions worldwide, proving that dreams can indeed come true when driven by dedication, vision, and a sense of purpose.
