Innovation Unleashed

Government School Students Engage in
Transformative Learning at Coorg Public School's
Atal Tinkering Lab

December 21, 2023

In a bid to foster innovation and collaboration, Coorg Public School, designated by the UN as a hub for creativity and learning, hosted a commendable initiative from December 15 to December 23, 2023. Under the aegis of the Atal Innovation Mission, the school's Atal Tinkering Lab (ATL UID № 25221873) welcomed a delegation of eight enthusiastic students and their teachers from Govt Model High School, Gonikoppal.

During their visit, the students immersed themselves in an interactive session, harnessing the lab's state-of-the-art resources to explore novel avenues of innovation. Led by their dedicated teachers, they delved into the world of technology and experimentation, engaging with the lab's tools to foster their curiosity and creativity.

To enrich their experience, the visiting students were graciously treated to a selection of refreshments, including snacks, tea, and a wholesome lunch. Dr. M Ramachandran, Principal and representative of The National UN Volunteers-India, extended a warm welcome to the attendees and lauded the government school children for their earnest pursuit of innovation.

The event was seamlessly coordinated by Mrs. Suptha, Mr. Chermana (Lab in-charge), and Mrs. Teena Machaiah, Coordinator of students' UN Volunteers-India. Their dedication and guidance ensured the smooth execution of this collaborative learning endeavor, underscoring the spirit of community and knowledge-sharing.

This initiative stands as a testament to the power of collective learning and underscores the pivotal role educational institutions play in nurturing the spirit of innovation amongst students. Coorg Public School continues to champion such collaborative initiatives, driving the transformation of young

minds into innovative thinkers poised to shape a brighter future.
