## **UN - Resolution 2024**

We, the Shristi English Medium School, declare our support for UN Resolution 2024, which aims to assist Sudan and South Sudan in the process of border normalization and peacebuilding. We believe that this resolution will contribute to the stability and security of the region, and create more opportunities for education and development for the people of both countries.

We also declare our commitment to SDG 4, which is to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all. We recognize the importance of foundational learning,

digital technologies, support for teachers, technical and vocational education and training, scientific collaboration, and lifelong learning as key elements of quality education.

We pledge to implement these principles in our school and community, and to work with other stakeholders to achieve the global goals for education and sustainable development. We are confident that by doing so, we will empower our students and ourselves to become active and responsible citizens of the world.
