UN Resolution 2024

Mrs Sapna Aggarwal, Middle section coordinator, St. Mary's Academy, Meerut Cantt, UP

Resolution: Ensuring Quality Education for All

Recognizing the importance of education as a fundamental human right and an essential

driver of sustainable development,

Acknowledging the significant progress made towards achieving the Sustainable Development Goals (SDGs), particularly Goal 4, which aims to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all,

Emphasizing the critical role of education in fostering economic growth, social cohesion, and sustainable development, and its potential to empower individuals and communities to build a more peaceful, just, and inclusive world,

Reaffirming our commitment to the principles of the 2030 Agenda for Sustainable Development and the Universal

Declaration of Human Rights, and recognizing the urgent need to accelerate efforts to ensure that all people have access to quality education,

We, the undersigned, resolve to:

1. Strengthen our collective efforts to provide inclusive, equitable, and quality education for all, irrespective of gender, socio-economic background, or geographic location.
2. Support the professional development of educators and invest in educational infrastructure to ensure that learning environments are conducive to the holistic development of every student.

3. Advocate for policies and programs that promote lifelong learning opportunities, digital literacy, and skills development to prepare individuals for the demands of the 21st-century workforce.

4. Promote global citizenship education and intercultural understanding to nurture respect for diversity, human rights, and the principles of sustainability.

5. Encourage partnerships and collaboration among governments, educational institutions, civil society organizations, and the private sector to mobilize resources and expertise in support of quality education initiatives.

6. Monitor progress, exchange best practices, and hold ourselves and others accountable for the effective implementation of policies and programs aimed at achieving SDG 4.

We urge all stakeholders, including governments, educational institutions, civil society organizations, and the private sector, to join us in our commitment to ensure that every individual has the opportunity to receive a quality education that equips them with the knowledge, skills, and values necessary to contribute to a more prosperous, peaceful, and sustainable world.
