**#Goal 4: Quality Education # Global Goals**  
Resolution 2024

## **Mrs Sweta Srivastava**

The National UN Volunteers-India cares much about SDG 4 Quality Education, Global Goals

## **UN Resolution 2024**

Her Declaration:

We, the educators of India, stand united in our commitment to achieve the Sustainable Development Goal 4: Quality Education for all.

We believe that education is the key to unlocking the potential of every child, and

the foundation of a prosperous and peaceful society.

We are proud of our rich and diverse history of education, which dates back to ancient times, when gurukuls and ashrams nurtured holistic learning and wisdom.

We are inspired by the legacy of our great universities, such as Nalanda and Taxila, which attracted scholars from across the world and contributed to the advancement of knowledge in various fields.

We are grateful for the influence of Buddhism, Jainism, and Islam, which enriched our educational landscape with spirituality, philosophy, and literature.

We are resilient in the face of challenges, such as invasions, colonialism, and political upheavals, which disrupted our educational institutions and imposed foreign systems and languages.

We are determined to overcome the barriers of poverty, inequality, and discrimination, which prevent millions of children from accessing quality education.

We are innovative in embracing technology, vocational training, and adult education, which enhance the skills and employability of our youth and adults.

We are respectful of our diverse languages and cultures, which reflect our identity and heritage.

We are responsible for ensuring that our education system is inclusive, equitable, and effective, and that it promotes lifelong learning opportunities for all.

We are the agents of change, who can transform our education system and our society for the better.

We are the educators of India, and we pledge to work together to achieve the Global Goal 4: Quality Education for all.
