Resolution 2024 - School Leadership skills

REV. BRO. EDWARD SEBASTIAN

Principal

St Mary's Academy,

Meerut Cantt, UP

## **UN – Resolution 2024**

Dear esteemed members of this group,

At St. Mary's Academy, we hold steadfast in our commitment to providing a quality education that empowers our students to become thoughtful, engaged, and responsible global citizens. We recognize that education is not only a fundamental

human right but also a catalyst for achieving all the other Sustainable Development Goals. By nurturing in our students the values of empathy, critical thinking, and cultural awareness, we are shaping the leaders of tomorrow who will drive positive change in their communities and beyond.

The Global Goals are not merely lofty aspirations; they represent a roadmap for building a more equitable, sustainable, and peaceful world. As an educational institution, we understand the profound impact that achieving these goals will have on the lives of our students and their families, as well as on the global community as a whole.

In our pursuit of SDG 4, we are dedicated to fostering inclusive and equitable quality

education for all, while promoting lifelong learning opportunities that enable individuals to reach their full potential. We recognize the importance of investing in teachers, enhancing educational infrastructure, and leveraging innovative technologies to ensure that no child is left behind.

Furthermore, we are deeply committed to instilling in our students a deep sense of responsibility towards the environment and society. By integrating sustainable development principles into our curriculum and extracurricular activities, we are nurturing environmentally conscious and socially responsible global citizens who are poised to contribute meaningfully to the achievement of all the Global Goals.

In conclusion, I urge the esteemed members of the United Nations to recommit themselves to the fulfillment of the Sustainable Development Goals, with a particular emphasis on SDG 4: Quality Education. By working together, we can create a world where every individual has access to inclusive, equitable, and quality education, and where learning becomes a driving force for building a better future for all.

Thank you for your attention and dedication to this vital cause.
