GFMD REPORT FROM January 2022 till November 2023

Communication On Engagement

To our Stakeholders,

I am pleased to reconfirm that Global Forum for Media and Development supports the ten principles of the Global Compact with respect to human rights, Labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Organization Name will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that changes in administration department. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Engagement (COE) that describes our company's efforts to implement the ten principles.

Sincerely yours,

Mona El-Saghir

This is not a tale of fiction but a genuine narrative of achievement.

A television interview between the Secretary-General of the Global Forum for Media and Development, Mona El-Saghir, and the prodigious Egyptian medical student Karim El-Shenawy. Filmed by Rehab El-Ghatrify .

This is a true story, not a product of imagination. It's a tale of resilience that can be emulated by today's youth, embodied by the young Karim El-Shenawy, a 26-year-old Egyptian. He graduated from the Faculty of Medicine at the University of Munich in Germany, specializing in neurosurgery.

Dear viewers, you might think it's a story from the realm of fiction, but I'll leave you the time to enjoy this uplifting interview together. The positive energy radiates as Dr. Karim recounts his success story, attributing it to divine guidance and the culmination of his efforts.

Indeed, he stands as a prime example and role model for Egyptian youth, confirming that this is not a tale of fiction but a genuine narrative of achievement.
