To our stakeholders :

We recognize that a key requirement for participation in the UN Global Compact is the annual preparation and posting of a Communication on Progress (COP) that comprises of a CEO statement of continued support for the UN Global Compact, a description of practical actions with regard to the principles of the UN Global Compact, and a measurement of outcomes or expected outcomes.

We are currently experiencing a delay in submitting our Communication on Engagement (COE) report, primarily due to the recent influx of new members into our organization. This significant addition to our team has necessitated additional time to properly integrate these new members, ensuring they are fully informed about our ongoing activities and commitments. Consequently, we have not yet had the opportunity to present them our document, nor been able to incorporate their insights and actions in response to this request. We are actively working to address these challenges and will submit our COE as soon as possible on the UN Global Compact website by May 25th 2024, at the latest.

Sincerely yours,

Romain SCHULZ
Delegated Head of Economy and Ecological Transition
