Dear Secretary General,

I am pleased to confirm that AIM Education & Research Society supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to participate in and engage with the UN Global Compact in the following way(s):

**Academic Institutions**  
**Non Governmental Organization**  
**Business and Industry Association**

AIM Education & Research Society - A non-governmental organization (NGO), non-profit, voluntary citizens' group which is organized on a local, national or international level. Task-oriented and driven by people with a common interest, we perform a variety of service and humanitarian functions, bring citizen concerns to Governments, advocate and monitor policies through provision of information. We organize specific issues, such as human rights, environment or health and livelihood. We provide analysis and expertise, serve as early warning mechanisms and help monitor and implement international agreements.

We are a Non Government Organization, committed to implement universal sustainability principles and to take steps to support UN goals. We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Thanking you

Dr. Mohammed Masood  
Chairman
