Dear Secretary-General,

I am pleased to confirm that CONSEJO GENERAL DE ECONOMISTAS-SPAIN supports the Ten Principles or the United Nations Global Compact on human rights, labour, environmental and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of Consejo General de Economistas, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (CoP) that describes Consejo General Economistas's efforts to implement the Ten Principles.

We support public accountability and transparency, and therefore we include detailed description of the efforts and activities carried out by Consejo General de Economistas in terms of sustainability, as well as the tools for measuring results in our "statement of non-financial information" report, specifically on pages 87 et seq.

Consejo General is immersed in this culture and supports the principles of the global compact, and we make constantly efforts to integrate the Ten Principles into our business strategy, culture and daily operations

Sincerely yours,

President
