Introduction

Practically, Gugah Nurani Indonesia hereafter as GN Indonesia has been working in Indonesia for 18 years as of 2023 since the Tsunami hit Aceh in 2005. We have 15 Community Development Projects with child sponsorship basis and been working for Corporate Social Responsibility Project in 4 locations.

The Main Program Intervention

GN Indonesia has prioritized three sectors, they are education, health, and economy, in our Community Development Projects. In the education sector, we have implemented a range of initiatives, including creative and innovative teaching training for teachers, the construction of community libraries and child learning centers, e-learning tools, and more. In the health sector, we have worked with health offices, Community Health Services, and health cadres to promote community-based sanitation, provide clean water, and install toilets for underprivileged families. In the economic sector, we have supported cooperatives through technical and financial support for revolving funds, empowered business groups in collaboration with Cooperative and Small Business Offices and collaborated with local governments to promote the products of business groups.

01.

We are Gugah Nurani Indonesia

01 Mission

02 Core Values

01

Mission

Our mission is our promise to be remembered by all our employees, volunteers, and stakeholders.

Gugah Nurani Indonesia exists to make the world a place without hunger, where people live together in harmony.

Gugah Nurani Indonesia respects the human rights of our neighbors suffering from poverty, disasters and oppression, helps them to achieve self-reliance and enables them to rebuild hope.

01

Core Values

Our core values are our specific commitments to delivering our mission.

01. We are Gugah Nurani Indonesia

- We serve people in need beyond ethnicity, religion, belief, and nationality.
- We promote self-reliance in sustainable development for individuals, families, and communities.
- We implement the rights of the child as top priority.
- We prosper global citizenship in mutual respect.
- We organize local volunteers to contribute in developing their own communities.
- We cooperate with all people who understand our mission and program.
- We work with professionalism and pursue financial and operational transparency.
- We strive to induce more people to join our work as members.

02.

How We Work

02

How We Work

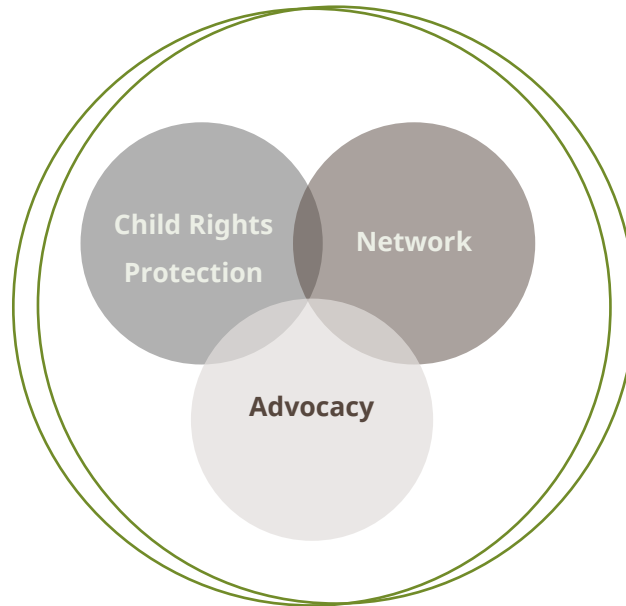

DEVELOPMENT PRINCIPLES

Our Neighbors, who are free from poverty, and whose rights are respected, live self-reliance in an inclusive community.

THE PRIMARY DEVELOPMENT DIRECTIONS

We conduct specialized and systematic operation focusing on three primary directions: Child Rights Protection, Network, Advocacy.

- **Convention on the Rights of Child (CRC)**
We plan and implement projects that ensure the thorough protection of children's rights based on the firm understanding of human dignity, with the principle of faithfully fulfilling the UN Convention on the Rights of the Child.
- **Network**
We leverage the human and material resources of the regions where its projects are implemented. We actively engage volunteers, partners, and local committees to activate and sustain the projects through organizational structures.
- **Advocacy**
We conduct advocacy activities such as campaigns, government engagements, to raise awareness about necessity of its projects and improve public understanding regarding civil society education.

03 Our Management

01

Gugah Nurani Indonesia Establishment

03. Where We Work & Our Management

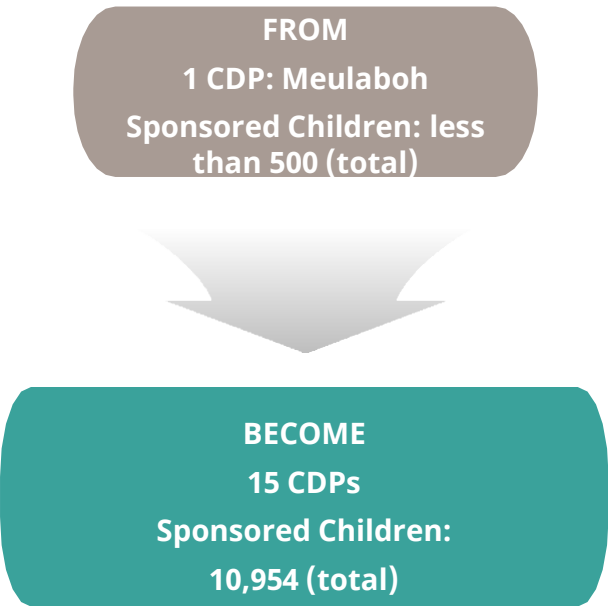

Registered as a local NGO namely **Gugah Nurani Indonesia** under the Ministry of Justice & Human Rights. We have **1 official Head Office with 2 CDPs** (in 2 Provinces).

To be more effective, we merged **3 CDPs in Jakarta and reached 15 CDPs** with 12,300 sponsored children.

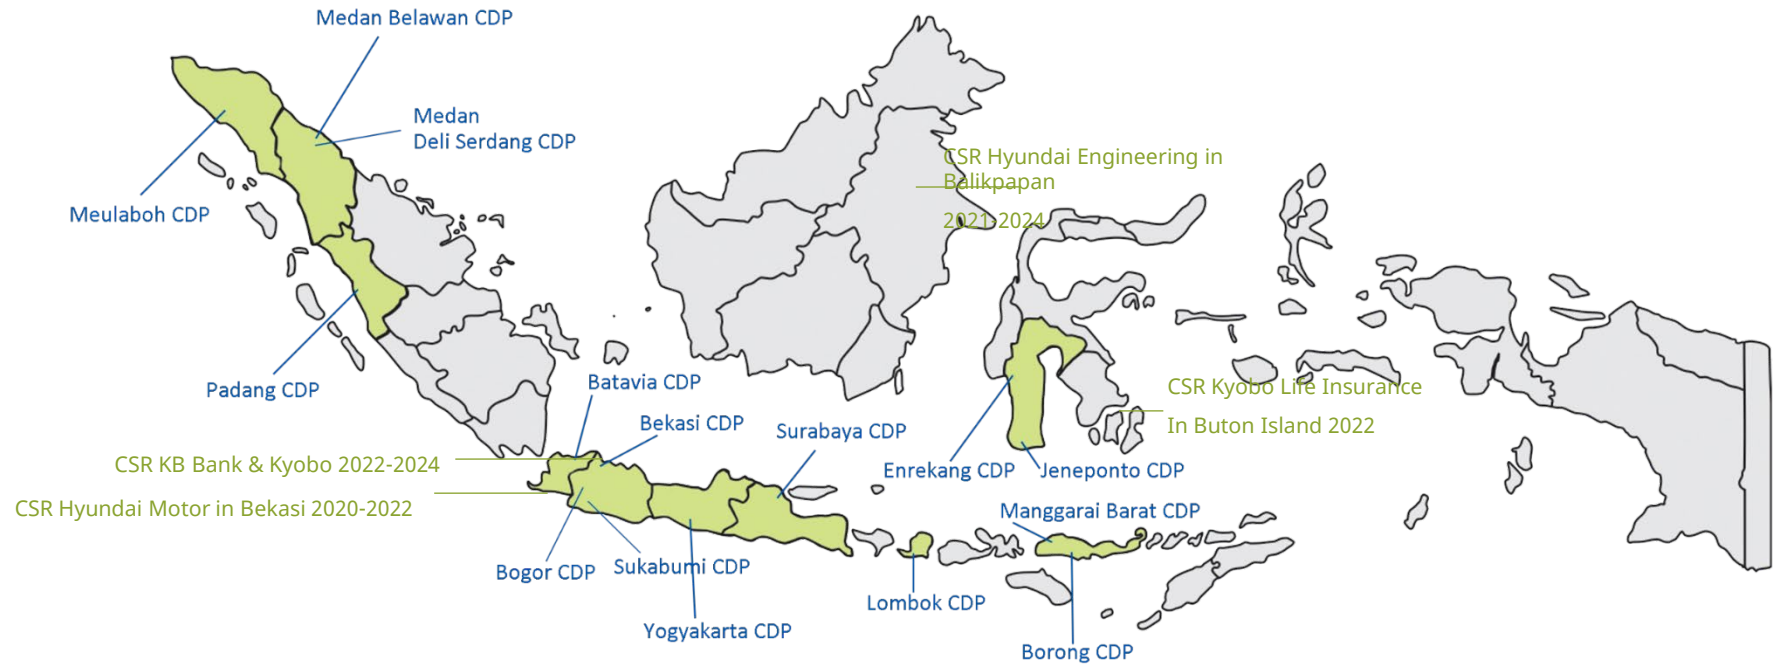

02

Our Project Sites

Local Organization As the founder spirit philosophy for autonomy and respect, Good Neighbors working with local person to registered as local organization namely Gugah Nurani Indonesia (**Gugah means awaken, Nurani means in deep of the heart**) under the Ministry of Justice and Human Rights No. AHU-594.AH.01.04 dated 24 February 2009.

Figure 1. GN Indonesia Project Areas & Sponsored Children Mapping

- **Project Areas** GN Indonesia works in 13 provinces (of total 38 provinces) through 15 Community Development Projects and 4 Partnership Projects. We are supported by 97 staffs, 100 volunteers, and 315 Community Development Committee members.

- **Intervention** Our center of excellences are on education, health, and income generation. We also ensure the issues of environment, climate change, gender, child protection, are addressed into our approaches. As the country that prone to disaster, we support the refugees through emergency relief.

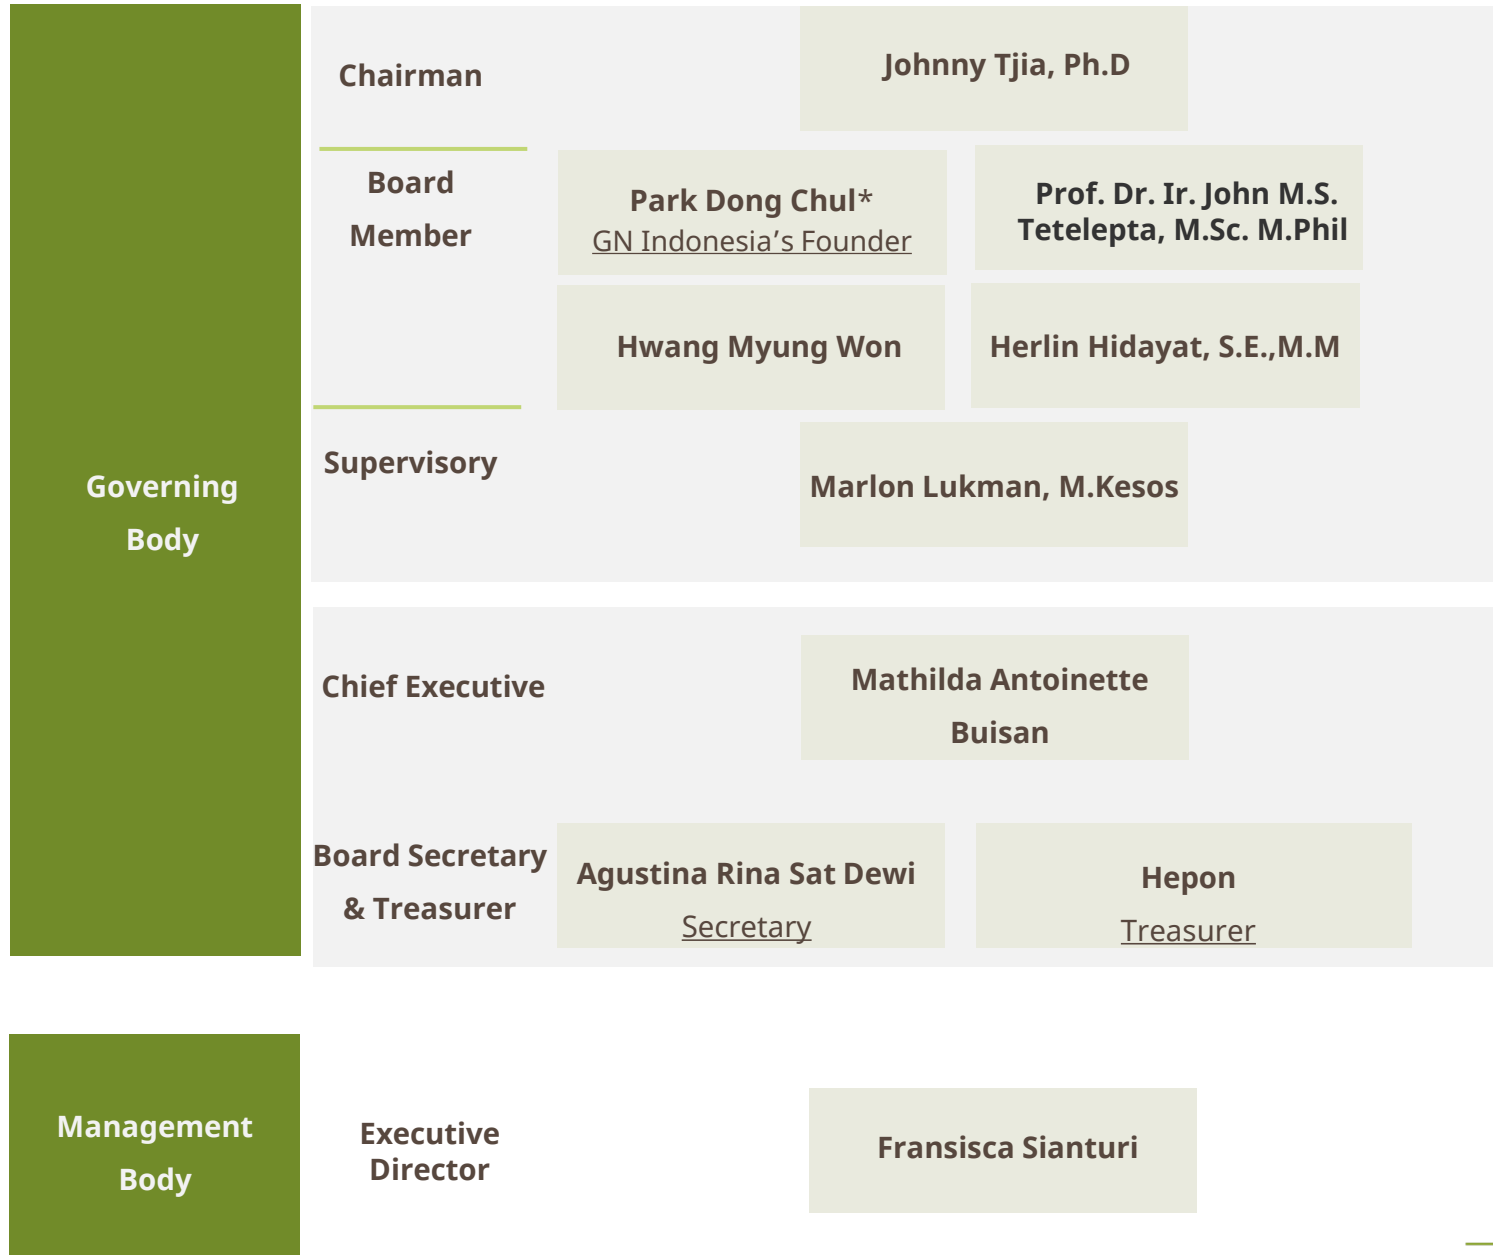

03

Our Governing Body

As a transparent and accountable organization, we work with local leadership as local NGO involving the expertise in their parts in social development, finance & management, enterprise, and community development.

*Mr. Park Dong Chul also works as East Asia Regional Director now supervising GN Indonesia operation.

02. Where We Work & the Management

04.

Child Sponsorship Program

01 Direct Services to Sponsored Children

01

Direct Services to Sponsored Children

Working together with local volunteers, we ensure to meet our sponsored children and received the basic services such as **family visit, school supports, health check up, distribution of hygiene kits.**

Total of sponsored children in **15 CDPs** are **10,954 children** as of July 2023, bringing impact to the family and community to self-reliance communities.

04. Child Sponsorship Program

Start with Children

School Supports

In 2022, we supported to 10,893 sponsored children to receive the school supports in kind of books, stationaries, school bag.

In certain areas, the children reuse their brother/sister school bag for their need to school. Through our intervention, the children have their own bag as part of motivation to go to school and graduate in timely manner.

Health Check-Up

We work together with local health officers working in Health Centers to periodically check the children healthy. The basic checking is for the ear, nose, throat (ENT), teeth, weigh and height.

This service is to early detect and prevent children from potential severe disease both in urban or rural areas.

Clean Water Access

Water is a compulsory need to be fulfilled.

Through the child sponsorship, we ensure in our project areas are available for the clean water.

05.

People Enjoy the Rights to Education

01 Early Childhood Education and Compulsory Education

02 Youth Development Program

03 Global Youth Network

04 E-Learning Program

05 Improve Literacy Program

01

Early Childhood Education & Compulsory Education

05. People Enjoy the Rights to Education

Ensuring the Quality of Education

Every child, regardless of gender, economic or social situation, should have their right to obtain the quality education ensured. To ensure such access, we have supported quality of teachers' teaching method in creative approach, parents and caregivers' understanding the need of child education.

We have also assisted in developing better schools' environment.

942

Teachers participated in developing the capacity.

1,174

Children with improved quality of education in Early Childhood Education.

35

Schools with improved facilities including education media for better learning

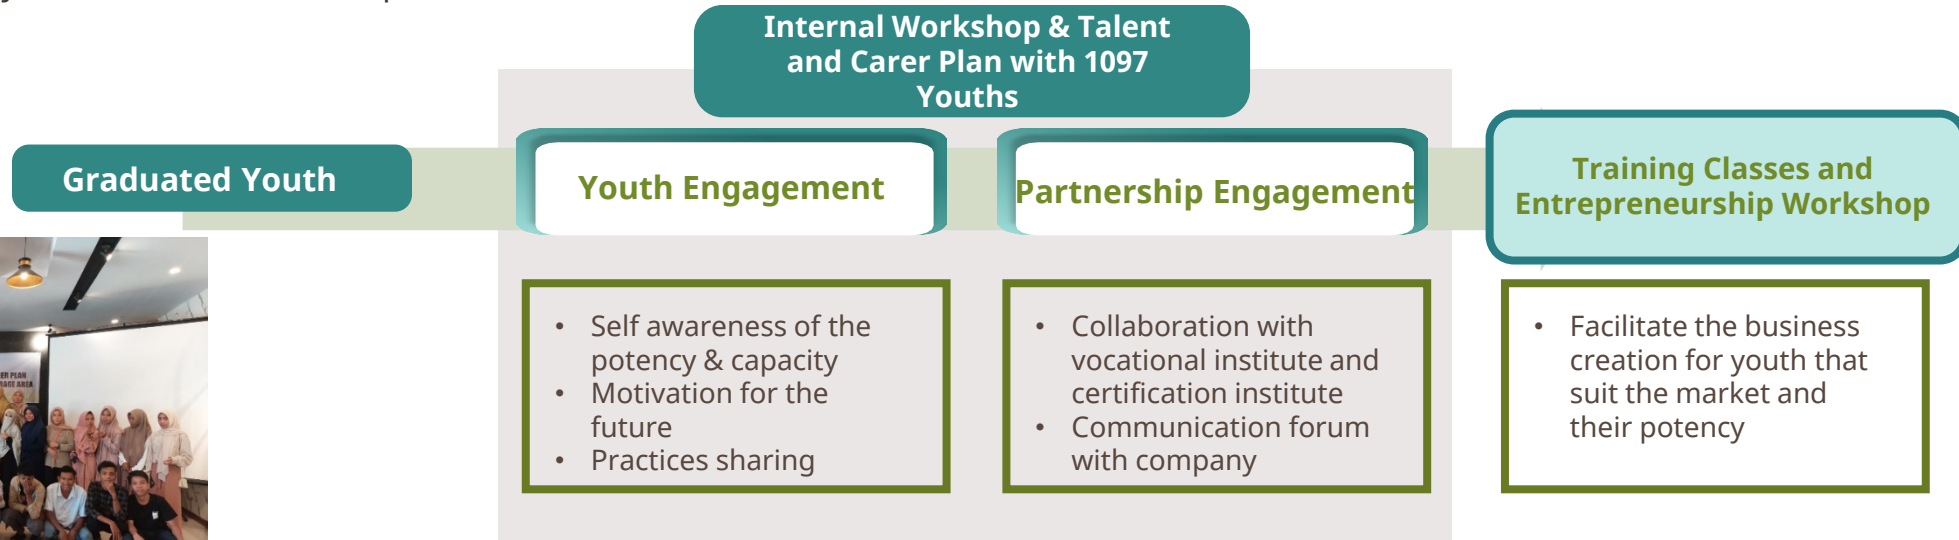

13,222

Children registered in our assisted schools.

02 Community-Based Activities

Youth preparedness for their future

- Youth people who have just graduated from high school still need to be assisted to have a better future. Through this program, we encourage the youth to be motivated to plan their future.

Youth joined the talent & career plan workshop

Youth shared their future plan together

Cooperation with Department of Workforce in regency level

Fish seed dispersal from our assisted youth in business creation

03

Global Youth Network

Our assisted children made changes for the ideas and contribution for climate change, we work together with them on climate change issues and acknowledge on SDGs. Even better, they connected to other young generation widely with other countries like South Korea and Africa.

Cooperation with Primary Schools in 3 CDPs	2 Primary School Students: @5 students
2 Times of local offline meeting for learning of Climate Change & SDGs	10 Times of Online Meetings with Korea & Africa

Agreement with related departments to gain the commitment

Training for 150 teachers as the commitment to develop their capacity

5 e-learning classrooms to increase digital literacy from primary school

Community e-learning Center

05

Improve Literacy Program

In order to improve public literacy, since 2016 government through the Ministry of Education and Culture has launched the National Literacy Movement program which consists of from the School Literacy Movement, the Family Literacy Movement, and the Community Literacy Movement. The condition of facilities and infrastructure to support the program, namely the library and school library management staff still far from adequate. The number of primary school libraries recorded is approx. 61.45 percent of the total number of schools, but only 19 percent of which are in good condition.

What we intervened to address the problem is to synchronize the community needs and the government policy. We **capacitated the teachers involving parents for the need of literacy improvement** and **providing the facilities** for children and community.

06.

People Exercise the Right to Health

01 Model to Solve Stunting Issue

01

A Model to Solve Stunting Issue

By end of 2022, the prevalence of stunting in Indonesia was 21.6% at national level with 14% as the target of 2024. Due to this case, GN Indonesia takes contribution to decrease stunting using community-based approach so that it can be replicable to other locations. And in the 1st half, our model showed 58% increment of weight from the intervene infants.

Key Result

This method is replicated to 31 Sub District in Surabaya Municipality with target participants of stunting children is 786 children.

Cooperation with University to conduct the research.

Awarded by Sub District Government of our Contribution.

07.

People Achieve Economic Empowerment

01 Economic Ecosystem through Cooperative

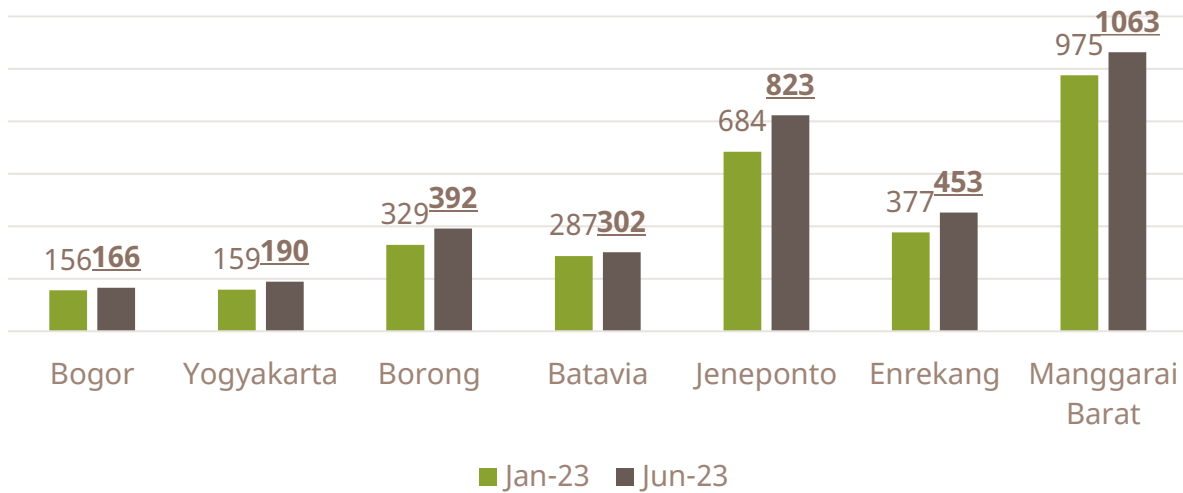

02 When Women are Empowered, Everyone Benefits

01

Economic Ecosystem through Cooperatives

- GN Indonesia’s strategy to foster local communities’ resilience is to build an economic ecosystem through cooperatives and Income Generation Group (IGG). To Ensure the continuity of cooperative businesses, it is essential to focus on cooperative member growth and involvement and create sustainable cooperatives with good governance.

Cooperative Member Growth

- By June 2023, our Cooperative members are in total 3,389 people included our sponsored children family.
- The total equity from Cooperative members is \$ 69,429 and GN Indonesia support for Revolving Fund is \$ 518,267 (2022 until June 2023).

Cooperative in Jenepono CDP with completed Board Executives and the manager.

01

When Women are Empowered, Everyone Benefits

Best Practices of Cooperative

- **Cooperative:** ETIKA Cooperative
- **Location:** CDP Enrekang
- **Participants:** 30 shops
- **Core Activity:** Run a groceries business to support small shop in several area in Enrekang District

1. Goods in ETIKA's Warehouse

2. Goods Distribution

3. Shop partner

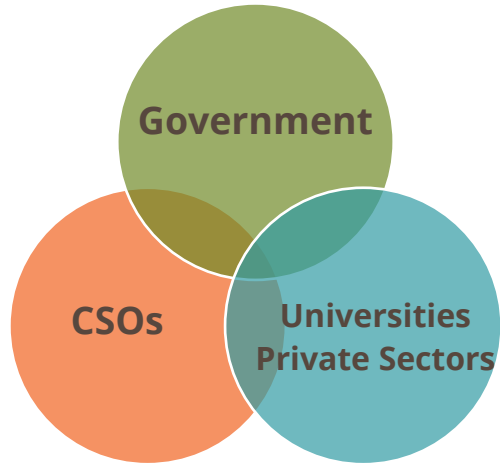

4. Shop partner (2)

- ETIKA Coop. implements a delivery mechanism for goods ordered by small shop partners. This helps community who have small shop businesses to get goods easily. They also work with our assisted business group that consist of women, not only the member but also the neighborhood also benefited.
- ETIKA Coop. applies a payment mechanism at the end, where partners can pay for goods purchased at the ETIKA warehouse after the goods are picked up. This is an advantage of ETIKA compared to other businesses that have the same business model as ETIKA and help the community to develop their business more easily.
- ETIKA's total revenue in the 1st half 2023 has reached IDR 200,163,220 (\$13,433).

01 Community-Based Activities

Collaborative & Participative Approach

In terms of ESG, we ensure the external parties of the organization are involved and support the program.

03. Community Development Projects

Communal Branding at City Level (Surabaya CDP)

We assist 31 sub-districts in Surabaya City. We work together with branding expertise and also cooperate with the universities to accelerate the branding in each sub-district. Basically, we now have 31 business groups located in 31 sub-districts. We also encourage their products/income can be shared with the marginalized children in their surroundings.

We are invited as the speaker in the live streaming of a national TV station.

Women groups showing their products in city level event.

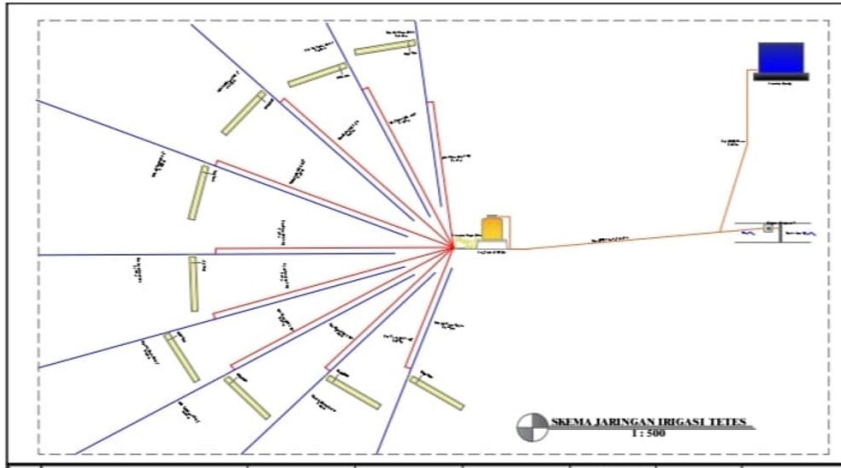

08.

People Live in Sustainable Environment

01 Agriculture with Drip Irrigation System

01 Agriculture with Drip Irrigation System

- The project is targeting for farmers in the young productive age (19-40 years), to empower women and promote gender equality. The project will sensitize the community and community leaders about the role of women in different dimensions of family, social and professional life. This is a cross-cutting objective that will be mainstreamed at every stage of design and implementation.

Site map of agriculture

03. Community Development Projects

Agromaritim Approach Program

Through agriculture, we contribute to climate change & community income

Ground preparedness for plantation

Seeding preparedness (mustard, beans, tomato, eggplant, chili)

Taking care for the plants

Having an impact in the Economy, benefit the community and sustainable for the environment.

02 Reduce Inequality and Foster Resilience in Local Communities

Incorporating innovative agricultural practices, our organization has implemented a drip irrigation system aimed at enhancing agricultural productivity and sustainability. Through this technology, we optimize water usage by delivering precise amounts directly to the roots of crops, minimizing waste and maximizing efficiency

Agriculture through Drip Irrigation System

Key Results

5 Most Varian of Vegetables

8.448 square meters of agriculture length beds

241 kg of harvested chili (sold)

156 kg eggplants sold

262 kg carrots sold

794 kg of green beans sold

204 kg of long beans sold

09.

People are Protected from Disasters

01 Disaster Risk Reduction

02 Emergency Relief

01

Disaster Risk Reduction

- 471 people in the villages of Pasié Nan Tigo and Padang Sarai understand the purpose of implementing the urban farming system as a preparedness effort disasters and ensure food security.
