December 15 2016

Mr. Ban Ki-Moon

Secretary-General
United Nations
New York 10017

Dear Mr. Secretary-General,

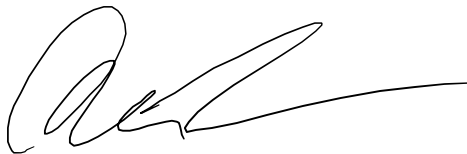

I am enthusiastically writing to confirm the commitment of our company, Pateo Projects to the ten Guidelines of the Global Compact and indeed to all 17 of the Sustainable Development Guidelines among core driving principals.

We are a company in 2017 launching a range of products and concept of production and distribution which is inherently focused on Human and Ecological sustainability, working together with developing and developed communities and support agencies to build a better future with a governance model we believe World changing.

Our company is dedicated to public accountability and transparency as a paramount pillar of our organization and it is our pleasure to have a forum such as the Global Compact COP policy and to commit ourselves to annual reporting thereupon. This would include:

- Chief Executive Statement of confirmation and renewal of our continued support for the Global Compact and its principles.
- A description of Practical actions (activities, policies, procedures in process and in planning) that our company undertakes in the four areas of Human Rights, Labour, Environment and Anti Corruption.
- Measurement of outcomes (performance against relevant targets and indicators, degree met and quantitative and qualitative measurements)

Sincerely,

Brendan Norman
CEO Pateo Projects FZE
