Dear Mr Secretary-General,

I am pleased to confirm that AKAN-SEL Co.Inc. supports the ten principals of the Global Compact with respect to human rights,labour, environment and anti-corruption.

With this communication, we express our intend to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millenium Development Goals. AKAN-SEL Co.Inc. will make a clear statement of this commitment to our stake holders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principals. We support public accountability and transperancy and therefore commit to report on progress within one year of joining the Global Compact and annually there after according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is seperate from our initial letter of commitment to join Global Compact.
- A description of practical actions (ie, disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the 4 issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (ie, the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

 **AKANSEL**
