Dear Sir,

Casper Foundation is a Bangladeshi non-profit organisation focused on youth empowerment with volunteers from local universities who ideate and execute projects that are inspired and guided by the UN SDG goals.

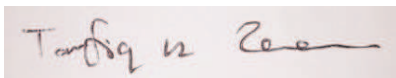

We support the ten principles of the UN Global Compact with respect to human rights, labour, environment and anti-corruption. We intend to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

Casper Foundation pledges to participate in and engage with the UN Global Compact in the following ways:

1. Execute projects that target the Global Compact's ten principles and UN SDG goals
2. Share research and findings of our volunteers and their work in the field that tackle some of the pressing social issues in our community
3. Participate in Global Compact global and local events
4. Participate in joint and/or special initiative and work stream
5. Commit to promote the Global Compact's ten principles and UN SDG goals in all Casper Foundation events and project expositions in front of stakeholders, supports and the general public

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication of Engagement (COE) that describes our organisation's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely yours,

Taufiq uz Zaman
CEO and Founder
Casper Foundation
