Dear Mr. Secretary-General,

EDUCADEMY is a consulting and a research group comprised of dedicated individuals. Our mission is to support intellectual, psychological, social and physical development of different communities. Our goal is to build a business/education partnership one that would actively support education, enhance community presence, and social responsibility to deliver positive results for our work force in the future.

I am pleased to confirm that EDUCADEMY supports the Ten Principles of the United Nations Global Compact with respect to: Human rights, Labor, Environment and Anti-corruption. With this communication, we express our intent to implement and advance the Global Compact principles within our sphere of influence as part of the strategy, culture and day-to-day operations of our company.

EDUCADEMY supports UN Sustainable Developmental Goals, specifically **Goal 4** to ensure inclusive and equitable quality education and promote lifelong learning opportunities for all and **Goal 5** to achieve gender equality and empower all women and girls. In addition, we will engage in collaborative projects to make a clear statement of this commitment to our stakeholders and the general public.

We also pledge to take part of the United Nations Global Compact activities, specialized initiatives and work streams of engagement in partnerships projects. We recognize that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy.

This includes:

- A statement signed by the chief executive officer expressing continuous support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the UN Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four targeted areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (i.e., the target based results/ KPIs or other qualitative or quantitative measurements of results).

Sincerely yours,

Ms. Paula Diaz Antonopoulos Wolfe
