Copenhagen d. 2. March 2017

Dear Mr. Secretary-General,

I am pleased to confirm that Stieler & Co. A/S supports the ten principles of the Global Compact with respect of human rights, environment, labor and anti-corruption.

As a supplier of promotional items, gifts and merchandise on the Danish market, we recognize our responsibilities that we as a company are committed to continually advance our work within CSR.

With this letter, we convey our aim to improve the ten principles within our own organization as well as in our network of suppliers and customers. We are highly committed to making the principles of Global Compact a part of our strategy, supply chain and daily operations of our organization. Stieler & Co. will therefor make a clear statement to our stakeholders of this engagement in collaborative projects to advance the broad UN goal.

Stieler & Co. accept that a key requirement for engaging in a partnership with the Global Compact is the annual submission of a Communication on Progress (COP), which will describe our firm's effort to implement the broader development goals of the United Nation. We support public transparency and responsibility, and therefor commit to report on improvement with one year from the date of joining, and thereafter the annual submission of the COP. This will include:

- A statement signed by our Chief Executive communicating continued support for the Global compact, its initiatives and principles. This will be separate from Stieler & Co's initial letter of commitment to join the Global Compact.
- A description of practical actions that Stieler & Co. has taken (or plans to undertake) to impact our economic, environmental, social and governance performance with respect to the four issue areas (human rights, environment, labor and anti-corruption).
- A measurement of outcomes using qualitative and quantitative measurements of results.
