Dear Mr. Secretary-General,

I am pleased to confirm that **CMA MONTAJES Y SOLDADURAS, S.L.** supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. **CMA MONTAJES Y SOLDADURAS, S.L.** will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within *one year* of joining the Global Compact, and *annually* thereafter according to the Global Compact COP policy.

Nevertheless, the worker that our company designated for the sending of the COP, has been seriously sick last 14 months, and for this motive the COP document has not been sent on time. We have decided to designate a new person in charge of COP, who has prepared the report of the year 2011 and he will be the future person in charge.

For all this, I request have the amiability to revoke our "deslisted" situation, and proceed with the attached COP.

Carlos García García
Managing Director
