

May 9 2017

H.E. António Guterres
Secretary-General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary-General,

Today May 9 2017 I am pleased to confirm to you that AFS Technologies supports the Ten Principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, on behalf of the team at AFS Technologies we express our intent to implement the Ten Principles. We are fully committed to making the UN Global Compact and its principles part of the strategy and culture within the day-to-day operations of our company, and to engaging in collaborative projects that will help advance the broader development goals of the United Nations and in particular the Sustainable Development Goals. AFS Technologies will make a clear statement of this commitment to our stakeholders and the general public.

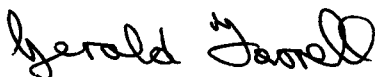

We recognise and understand that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that will describe our company's ongoing efforts to implement the Ten Principles. We support public accountability and transparency, and therefore commit to report on our progress within one year of joining the UN Global Compact, and annually thereafter according to the UN Global Compact COP policy. Our COP will include:

A statement signed by the chief executive expressing continuing support for the UN Global Compact and the renewal of our ongoing commitment to the UN Global Compact initiative and its principles. This statement is separate from this initial letter of commitment to join the UN Global Compact.

A description of the practical actions (i.e. disclosure of any relevant policies, procedures, activities) that our company has taken (or plans to undertake) to implement the UN Global Compact principles in each of the four issue areas of human rights, labour, environment and anti-corruption.

A measurement of outcomes related to the degree to which our targets and performance indicators were met and will be supported by other appropriate qualitative or quantitative measurement of results.

Yours sincerely,

Mr. Gerald Farrell
Managing Director
AFS Technologies
