Letter of Commitment

Dear Mr. Secretary-General,

I am pleased to inform you that the Bellona Foundation supports the 10 principles underpinning the UN Global Compact with respect to human right, labour, environment and anti-corruption. With this letter we pledge to advance these principles within our organization, in all countries we operate and within as well as all our partner and the public in general.

Bellona is a solutions-oriented environmental NGO headquartered in Norway. We were incorporated in 1986. One of our key concerns is climate and energy. We are seeking solutions that can provide sustainability addressing the right to development, access to clean energy, sufficient food and clean water.

Bellona holds observer status with UNEP Governing Council and UNFCCC and is currently applying to become an observer organization to the International Maritime Organisation.

We intend to actively participate in the activities of UN Global Compact where appropriate and feasible. We will participate in local networks, special initiatives and processes, partnership projects. We understand that this entails reviewing and commenting on other entities Communications of Progress. We would also seek the opportunity to participate at the high-level summits of the UN Global Compact.

Sincerely yours

A handwritten signature in blue ink, appearing to read "Frederic Hauge".
