Dear Sir,

Smile Foundation supports the ten principles of the UN Global Compact with respect to Human Rights, Labour, Environment and Anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and general public.

We also pledge to participate and engage with the UN Global compact by working towards eradication of child labour by providing education to the underprivileged children through our Mission Education Programme. We are committed to sensitize the community as a whole towards eradication of the child labour.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to Global Impact COE Policy.

Yours sincerely
