Dear Mr. Secretary-General,

I am pleased to confirm that Aclima supports the ten principles of the United Nations Global Compact with respect to environment, human rights, labor, and anti-corruption.

In this letter, we express our intent to advance the principles by making them part of the strategy, culture, and operations of our company. We commit to engage in collaborative partnerships to foster the broader development goals of the United Nations, particularly the Sustainable Development Goals. Aclima will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely,

Davida Herzl
CEO & Co-founder, Aclima
