Dear Mr. Secretary-General,

I am delighted to confirm that the Yerra Solutions Group is committed to and supports the ten principles of the Global Compact with respect to human rights, labor, the environment and anti-corruption.

We are dedicated to advance these principles within our company across all our entities around the world, as well as our influence outside of the company. We will continue to engage in projects which promote and advance such principles, particularly the Sustainable Development Goals. Yerra Solutions will make a clear statement of this commitment to our stakeholders and the general public.

Yerra Solutions is aware that an important requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes Yerra Solutions' efforts to implement the ten principles. Yerra Solutions supports public accountability and transparency, and so we fully commit to report on our progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions (i.e., disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labor, environment, anti-corruption).
- A measurement of outcomes (i.e., the degree to which targets/performance indicators were met, or other qualitative or quantitative measurements of results).

We look forward to contributing to the promotion of the Global Compact principles. Please do not hesitate to reach out to us in case there are any questions.

Sincerely yours,

Ms. Rajitha Boer
