Subject: Membership to UN Global Compact

Dear Mr. Secretary-General,

Change- in Education Foundation is a social and developmental sector organization that presents an innovative model of Public Private Partnership in Pakistan. Change has been formed with the strategic intent to bridge the implementation and commitment gap in the Social and Education Development sector of Pakistan. Change - In Education core focus areas include, C = Curriculum for schools and teacher development, H = Help through teacher training & monitoring, A = Assessments & Examinations improvement, N = Nutrition and school health for students, G = Gender equality in education, E = Education for All.

Change fully supports and commits to the ten principles of the UN Global Compact on human rights, labor, environment, and anti-corruption. These principles are wholly inculcated in our domain of work. In future we commit to clearly stating the essence of these principles in most of our communications and outreach including our Vision and Mission statements.

We being a social and developmental sector organization having done various projects in collaboration with United Nations Organizations strive towards good governance and support to the UN principles and goals such as Millennium Development Goals. With this passion towards responsible operations we wish becoming a formal member of this initiative as we intend to further our efforts through participation in Country/Local Networks, facilitating participants' Communications on Progress and partnering with UN to commend efforts for sustainable development.

Sincerely yours,

Chaudhry Faisal Mushtaq
