Dear Mr. Secretary General,

I am pleased to confirm that HarassMap Foundation supports the ten principles of the UN Global Compact with respect to human rights, labor, environment and anti-corruption. With this commitment, we express our intent to support the Global Compact advancing these principles, and will make a clear statement of this commitment to our stakeholders and the general public.

We pledge to participate in and engage with the UN Global Compact in the following way(s): Supporting and taking action across SDGs, adopting the Women's Empowerment Principles, making good use of practical tools and resources provided by the Global Compact Network, and making them integral into our work.

HarassMap is an award winning initiative founded in late 2010. We work to engage Egyptian society to create an environment that does not tolerate sexual harassment. It is therefore key to our work and vision to recognize and accept principles of women's equality and participation. HarassMap can engage and participate in the UN Global Compact network by working on advancing and promoting gender equity and zero tolerance to sexual harassment environment in workplaces, marketplaces, educational institutions and communities. HarassMap is committed to always creating an impact and provide opportunities to increase understanding of principles such as inclusion, safety, training and transparency related to sexual harassment in Egypt.

We recognize that a key requirement for participation in the Global Compact is the submission of a Communication on Engagement (COE) that describes our organization's efforts to support the implementation of the ten principles and to engage with the Global Compact. We support public accountability and transparency, and therefore commit to report on progress within two years of joining the Global Compact and every two years thereafter according to the Global Compact COE policy.

Sincerely,

Reem Wael  
Director
