Dear Mr. Secretary General,

17 May 2010

On behalf of the Executive Board, I am pleased to confirm that the Actavis İlaçları A.Ş supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence, and will make a clear statement of this commitment to our stakeholders and the general public.

Actavis started to operate in Turkey in 2003 and since then trust and confidence are among Actavis Turkey's most valuable assets for its owners, employees, customers and suppliers, as well as the local community and environment in which we operate. Our interests are integral to the Actavis Group's business operations and its corporate reputation. Led by its core Group's values, Actavis Turkey maintains a commitment to quality and growth that is equalled by its determination to create value for all its stakeholders.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

  
Mr. Serdar Sözeri  
Country Manager Actavis Turkey
