July 19th, 2017

Dear Mr. Secretary-General,

2016- 2017 has been an important year for Fellgroup given that we have incorporated Sustainability and Impact Maximization into the core strategy of our company. In this sense, Corporate Social Responsibility is embedded into our business processes enabling us to ensure we pay particular attention to the impact of our activities and support the ten principles of the United Nations Global Compact (UNGC).

In a world of increasing international competition, Fellgroup aims to differentiate itself by delivering the highest quality projects that *also* positively impact the maximum number of people. Corporate responsibility is a core focus for our organization and is reflected by our Sustainability Model which includes performing meaningful projects, adding and sharing value and building strong relationships.

Backed by a solid organizational structure and years of experience, our company continues to transform itself towards continuous improvement. Fellgroup, by embracing the values of the UNGC and displaying a responsible attitude, is ready to respond to the social, environmental and economic challenges of the world today. We recognize that a key requirement for participation in the Global Compact is submitting an annual Communication on Progress (COP). We commit to yearly communicate the initiatives we have implemented according to the Global Compact COP policy which includes:

- A statement signed by the chief executive expressing continuous support for the Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of the practical actions we have undertaken to implement the ten Principles.
- Measurement of outcomes of our initiatives.

I am personally committed to supporting the Global Compact and acknowledge that we all have a role to play in this initiative. Respecting the ten principles of the UNGC and engaging our stakeholders is very important to us.

Sincerely yours,

David Gatchell
Founder & CEO
