Entry letter

Dear Mr. Secretary-General

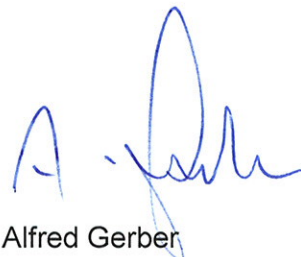

We are pleased to confirm that Sulzer Ltd. joins the UN Global Compact supporting the ten principles in the areas of human rights, labor practices, environmental protection and combating corruption. With this communication we express our commitment to the Global Compact and its principles. Sulzer's admission is based on the fact that the Global Compact principles make good business sense. They are directly linked with the Sulzer core values and own business principles which we strive to fulfill every day. Sulzer will make a clear statement of this commitment to its stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) describing our company's efforts to implement the ten principles. We will therefore integrate the COP in our ongoing sustainability reporting to further strengthen public accountability and transparency and commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

Ton Buechner
