4 August 2017

Dear Mr Secretary-General

I am pleased to confirm that Myer supports the ten principles of the United Nations Global Compact on human rights, labour, environment and anti-corruption. With this communication, we express our intent to continue to implement those principles within our sphere of influence.

Myer has a long history of philanthropy and we're proud of our track record as a responsible business. We believe that business has a role to play in ensuring a sustainable future. We have been disclosing non-financial performance for some years now through our sustainability reporting and will continue to be transparent on these issues.

We are committed to making the UN Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Myer will make a clear statement of this commitment to our stakeholders and the general public.

We recognise that a key requirement for participation in the UN Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining and then annually in line with COP policy. This includes:

- A statement from me expressing continued support for the UN Global Compact and renewing our ongoing commitment to the initiative and its principles;
- A description of practical actions that Myer has taken to implement the UN Global Compact principles in each of the four issue areas of human rights, labour, environment, anti-corruption; and
- Measurement of outcomes.

Yours sincerely,

Richard Umbers
CEO and Managing Director
Myer Pty Ltd
