Dear Mr. Secretary-General,

I am pleased to confirm that System Frugt A/S supports the ten principles of the Global Compact with respect to human rights, labor, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operation of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals.

To promote the UN Global Compact, System Frugt has joined the BSCI Code of Conduct – a practical set of principles and values referring to the UN Global Compact conventions to improve working conditions in the supply chain.

All of this is clearly communicated in System Frugt's CSR policy together with the goals for the fiscal year 2017/2018.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress that describes our company's effort (CSR goals) to implement the ten principles. We commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy. This includes:

- A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact.
- A description of practical actions that System Frugt has taken and plan to take to implement the Global Compact principles in each of the four issues areas.
- A measurement of outcomes

Sincerely yours,

Mr. Peter Brun

CEO, System Frugt A/S.
