

SmarterGrid International

3rd October, 2017

H.E Antonio Guterres
Secretary General
United Nations
New York, NY 10017
USA

Dear Mr. Secretary General,

LETTER OF COMMITMENT

I am pleased to confirm that Smarter Grid International Limited supports the ten principles of Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engage in collaborative projects which advances the broader development goals of the United Nations, particularly the sustainable development Goals. Smarter Grid International will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participating in the Global Compact is the annual submission of a communication on progress (CoP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact 'COP policy. This includes:

- * A statement signed by the chief executive expressing continued support for the Global Compact and renewing our ongoing commitment to the initiative and its principles. This is separate from our initial letter of commitment to join the Global Compact,
- * A description of practical action (i.e disclosure of any relevant policies, procedures, activities) that the company has taken (or plans to undertake) to implement the Global Compact principles in each of the four issue areas (human rights, labour, environment and anti-corruption).
- * A measurement of outcome (i.e the degree to which targets performance indicators were met, or other qualitative or quantitative measurements of results).

Sincerely yours,

Mrs. Heather Onoh
Co-Founder Smarter Grid International Limited
