Date: August 25, 2010

H.E. Ban Ki-moon  
Secretary-General  
United Nations  
New York, NY 10017, USA

Dear Mr. Secretary-General,

LS Mtron was established in July 2008, with an aim to strengthen its global competitiveness and core competencies in the fields of industrial machines and high-end components. We are to offer differentiated solutions to customers through excellent technology and quality. We contribute to society with our transparent and environment-friendly management and evolve into a company that grows together with customers and earns respect from society.

I am pleased to confirm that LS Mtron supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Millennium Development Goals. LS Mtron will make a clear statement of this commitment to our stakeholders and the general public.

We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We support public accountability and transparency, and therefore commit to report on progress within one year of joining the Global Compact, and annually thereafter according to the Global Compact COP policy.

Sincerely yours,

LS Mtron Co., Ltd LS Tower 11th Floor, 1026-6
