Dear Secretary-General,

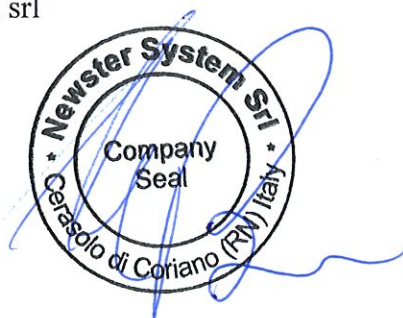

I, the undersigned, Andrea Bascucci, Sole Administrator of the company Newster System srl, am pleased to confirm that Newster System srl supports the ten principles of the Global Compact with respect to human rights, labour, environment and anti-corruption.

With this communication, we express our intent to advance those principles within our sphere of influence, making Global Compact and its principles part of the strategy, culture and day-to-day operations of our company and to engage in collaborative projects which advance Sustainable Development goals. Newster System srl will make a clear statement of commitment to our stakeholders and the general public.

We understand that a key requirement is the annual submission of a Communication on Progress (COP) that describes our company's efforts to implement the ten principles. We therefore commit to report on progress within one year of joining Global Compact and annually thereafter according to the Global Compact COP policy. This includes :

- A statement signed by the chief executive expressing continued support for Global Compact and renewing our ongoing commitment to the initiative and its principles.
- A description of practical actions that the company has taken to implement Global Compact principles in each of the four areas
- A measurement of outcomes

Yours Sincerely,  
Andrea Bascucci  
CEO, Newster System srl
